Summer after sophomore year: Geo 3911 Field Geophysics

Shaded courses are offered only once each year. Prerequisites are listed under the course name.

UD You must have at least a 2.00 technical GPA for admission to upper division Geology. This GPA includes all calculus, physics, chemistry, geology, computer science, and engineering courses. In addition, courses with UD need to be completed before you apply, unless you have at least a 2.50 tech GPA and the courses in progress.
For students admitted to the University prior to Fall 2002, the 2.00 GPA includes all courses taken at the U.

Courses with a double-lined border are Writing Intensive (WI) courses and count toward your writing intensive requirement. You are required to complete four writing intensive courses, one of which must be at the 3xxx-level, and one of which must be in your major department, or approved by your department.

Geo 2303 -- Geochemical Principles -- is WI.

Math 2373 and 2243 are Linear Algebra and Differential Equations.
Math 2374 and 2263 are Multivariable Calculus and Vector Analysis.

You need 120 semester credits to earn your degree.
